

The Engineering Difference

COASTAL & INFRASTRUCTURE

RESPONSIBLE. RELIABLE. RESULTS.

GIS Engineering's team has planned, designed, permitted and administered the construction of hundreds of millions of dollars of coastal, port, and marine infrastructure related projects and possess long-standing relationships with a high-quality reputation with nearly all local, state and federal authorities in the Gulf Coast Region. Client service is a core value at GIS, and we strive to support the greater goals of any project. We have built our company on transparency with our clients, and while we understand our clients expect us to be perfect, each project brings unique challenges to even the most experienced professionals. Our responsiveness and accountability to the results for our clients, against these challenges, set GIS apart.

ABOUT US

GIS Engineering has been dedicated to providing high-quality, responsive professional services that clients need to achieve success. GIS Engineering has grown to nearly 225 employees in just 8 years of business; this market emergence demonstrates the company's ability to provide trusted services with enthusiasm, diligence, and creativity. GIS Engineering is a multi-discipline engineering, surveying and construction management firm providing services to customers in the Energy, Industrial, Power and Public Works sectors. GIS Engineering is a subsidiary of GIS Holdings, LLC which was established in 1948. With 20+ strategically located facilities, 3,000+ employees, and 20+ service lines, GIS is capable of offering full-service design, fabrication and construction services to clients as a single point of contact. For more information on our company, you can visit www.gisy.com

SAFETY

LIFE is the proactive, operational, and behavior-based component of GIS's comprehensive safety management program. While our Corporate HSE group focuses on compliance, training, and incident response, the LIFE processes specifically cover Operational Safety, through: comprehensive work planning; increasing awareness of work area & task risks; intervention techniques for redirecting at-risk behaviors; embedded field presence; quarterly initiatives focused on observed areas of risk; and visible leadership engagement all while encompassing the Human Performance Improvement Principles.

PEOPLE

GIS employees are at the heart of our business. We are committed to developing and sustaining long-standing relationships with both our internal and external clients. Each employee is committed to excellence and continuous improvement. We understand the personal component of our business and are built upon core values that drive a partnership-minded approach to providing valued solutions to our clients while understanding our clients' operations, goals, and bottom line drivers. Our people believe greater value is created by aligning our goals with those of our clients and striving for innovation and excellence with every opportunity.
