

COMMISSIONING & INTEGRITY

DELIVER ROI WITH MORE CONTROL.

GIS Commissioning & Integrity services, powered by MODS technology, have taken traditional field service activities and combined them with MODS software applications to help define, track and execute the planning and execution of commissioning activities in a safe, efficient, and cost-effective manner. Operating a specialty service division with multi-discipline technicians, we can seamlessly integrate with our construction team while utilizing the latest in digital technology saving our clients the addition cost of 3rd party contractors, which in turn can result in few onsite personnel in addition to reducing the administrative burden currently experienced using manual, paper-based solutions.

COMMISSIONING

- ▶ Chemical Cleaning / Hot Oil Flushing
- ▶ High Pressure Leak Testing
- ▶ Millwright
- ▶ Rotating Equipment
- ▶ Calibration and Testing of Instruments
- ▶ Visual Inspection for Complete and Correct Installation
- ▶ Insulation and Continuity Testing of Cables
- ▶ Cleaning, Flushing, Pressure and Leak Testing of Pneumatic and Hydraulic Tubing
- ▶ Adjustment of Control, Alarm, & Shutdown Settings
- ▶ Loop Testing
- ▶ Function Testing of Control Systems
- ▶ Function Testing of Field Instruments
- ▶ Punch Point List for Field Instruments

INTEGRITY

- ▶ Bolt Torquing & Tensioning
- ▶ Conventional Hydro 0-25k
- ▶ Isolation/Weld Testing 0-15k
- ▶ Open End Hydro Testing
- ▶ Cold Cutting
- ▶ Cold Tapping
- ▶ Flange Repairs and Machining
- ▶ Equipment Base Machining

COMPLETIONS

- ▶ Certifications Management
- ▶ Database Management
- ▶ Handover Management
- ▶ Equipment to Check Sheet Matrix (tag type list)
- ▶ Authority Matrix Management
- ▶ Limit of System Handover (LOSH) Management

ENGINEERING & PROJECT MANAGEMENT

- ▶ Project Management & Controls Services
- ▶ Process Engineering
- ▶ Mechanical Engineering
- ▶ Civil/Structural Engineering
- ▶ Electrical/Instrumentation Engineering
- ▶ Piping Design
- ▶ Survey & Laser Scanning

BENEFITS OF USING MODS COMPLETIONS SOFTWARE

- Full traceability and accountability
- Improve productivity with up to 70% greater efficiencies
- Cloud-based system using handheld devices
- Real-time / live reporting remove time lags of paper-based signoffs
- Reduce administrative burdens
- Structured accountability for user rights
- Automated system population, with efficient system interfaces
- No delays in ITR signoff and handovers
- Offers 100% paper-free execution if desired.

GIS services combined with MODS software solutions is one that delivers ROI with better control, helps visualize, analyze, and capitalize with accountable data you can depend on.

ENERGY • INDUSTRIAL • INFRASTRUCTURE • POWER

WWW.GISY.COM

ABOUT US

Established in 1948, GIS is a 75+ year-old full-service design, fabrication, and construction contractor that is centered on the people that make up the organization. GIS offers clients a single point of contact to utilize our 20+ strategically located facilities, 3,000+ employees, and 20+ service lines. Serving Energy, Industrial, Infrastructure, and Power markets, we align our services with operations from the conceptual stage through construction, commissioning, and asset maintenance.

For more information on our company, you can visit www.gisy.com.

SAFETY

LIFE is the proactive, operational, and behavior-based component of GIS's comprehensive safety management program. While our Corporate HSE group focuses on compliance, training, and incident response, the LIFE processes specifically cover Operational Safety, through: comprehensive work planning; increasing awareness of work area & task risks; intervention techniques for redirecting at-risk behaviors; embedded field presence; quarterly initiatives focused on observed areas of risk; and visible leadership engagement all while encompassing the Human Performance Improvement Principles.

PEOPLE

GIS employees are at the heart of our business. We are committed to developing and sustaining long-standing relationships with both our internal and external clients. Each employee is committed to excellence and continuous improvement. We understand the personal component of our business and are built upon core values that drive a partnership-minded approach to providing valued solutions to our clients while understanding our clients' operations, goals, and bottom line drivers. Our people believe greater value is created by aligning our goals with those of our clients and striving for innovation and excellence with every opportunity.
