ABOUT US

Established in 1948, GIS is a 75+ year-old full-service design, fabrication, and construction contractor that is centered on the people that make up the organization. GIS offers clients a single point of contact to utilize our 20+ strategically located facilities, 3,000+ employees, and 20+ service lines. Through the combined efforts of our unique capabilities GIS has the experience and resources to plan, mobilize, & execute any response or recovery project regardless of size and complexity.

GIS brings a client-focused approach for Disaster Recovery and Relief Services, successfully managing and executing hundreds of disaster projects, servicing nearly 100 clients throughout the Gulf Coast regions. Our highly experienced leadership and key personnel are trained with many years of extensive knowledge providing disaster recovery needs including: **debris removal, program management, power generation, housing accommodations, inspection and safety**. Through our team and strategic partnerships, we have the confidence to immediately respond and work with pressing schedules these situations may bring. GIS has experienced first hand the economic stress within our community and our personnel due to the aftermath of natural disasters. We pride ourselves in the successful management and leadership of ensure our projects are carried out safely, all doing so while continuing to keep **people** in the forefront of all that we do.
